

SERGIO MICHELOTTI C

Java Backend Developer|Spring Boot, REST APIs & System Integration

Backend Java Developer with 6+ years of experience building backend solutions using Java and Spring Boot. Strong background in REST APIs, system integrations, and enterprise applications, with experience working with Docker, Kubernetes, and CI/CD. Experienced in developing and maintaining backend services, troubleshooting production issues, and integrating systems across enterprise projects.

Professional Experience

Backend Engineer – Certius Technologies (2020– Present)

- Backend application development with Java 8+, Spring Boot, and Spring MVC.
- REST API and SOAP service design for IVR systems and enterprise platforms.
- Work on conversational tools and telephony-related integrations.
- Container deployment setup and support using Docker and Kubernetes.
- CI/CD automation with Jenkins and Azure DevOps.
- Integration development for internal and external services.
- Troubleshooting, improving, and monitoring production systems.
- Team collaboration in agile environments.
- Adoption of solid coding, testing, and version control practices.

Junior Software Developer -Grupo GEA SA (2019 -2020)

- Developed and maintained features for a travel booking platform offering flight and travel packages.
- Worked across backend and frontend components using Java, PHP, HTML, SQL, and React.
- Assisted with Java backend bug fixing and API-related functionality.
- Developed and modified React-based UI components, including filters, dropdowns, and travel offer and pricing displays.
- Used Git for version control and collaborated on application maintenance and development.
- Worked with applications deployed on cloud-hosted servers.

Junior Programmer Analyst – Universal Software House (2017 – 2018)

- Banking solution development on IBM AS/400.
- Business logic creation with LANSA.
- Relational database integration and maintenance.
- Support and ongoing improvement of financial sector applications

Academic Record

Computer Engineering

Institution: Alejandro de Humboldt University

Graduated: 2018

Higher Technical University Computing

Institution: Instituto Nuevas Profesiones

Graduated: 2013

Buenos Aires CABA, Argentina

Technical Knowledge

Backend & Architecture:

- Java 8/11/17/21
- Spring Boot
- Spring Security
- Hibernate / JPA
- Service-based Architecture
- APIs REST & SOAP

DevOps & Cloud:

- Docker
- Red Hat OpenShift (Basic)
- Kubernetes
- Jenkins
- Azure/AWS
- CI/CD Pipelines
- Linux

Databases:

- PostgreSQL
- MySQL

Frontend:

- Angular
- Next.js
- TypeScript

Testing & Quality:

- JUnit
- Mockito
- Postman
- Unit and Integration Testing
- SonarQube
- Coverity

Tools:

- Git
- Maven
- Scrum / Agile
- AI-assisted development
- AI coding agents
